

Module 3 Assignment 1

Ellen Bledsoe

2022-10-11

Remember, these numbers will not match your data! They match the values in the example_data.csv. I've provided them in case you want to check your code with the example data to make sure you have done the correct thing.

8.

```
## [1] 10.5
```

9.

```
## [1] 11.71429
```

```
## [1] 3.422614
```

10.

```
## [1] 0.875
```

11.

```
## [1] 1.28125
```

12.

```
## [1] 1.131923
```

14.

```
## [1] 2.364624
```

15.

```
## [1] 2.676573
```

16.

```
## [1] 13.17657
```

17.

[1] 7.823427

19.

[1] 672

20.

[1] 5248

21.

[1] 72.44308

22.

[1] 171.3007

23.

[1] 843.3007

[1] 500.6993
